**Re: UM 1930 PGE Community Solar Bill Credit Update**

Portland General Electric Company (PGE) initially submitted this filing on December 29, 2020 in compliance with Commission Order No. 19-392. "Starting on January 1, 2021, until the Commission determines that it will no longer accept pre-certification applications at the interim rate, utilities will file an update to the base rate by January 1<sup>st</sup> of every year."<sup>1</sup> PGE had requested an effective date of February 1, 2021. At the request of Staff, PGE is now requesting an effective date of February 24, 2021.

PGE is to include transmission, distribution, and energy charges (first 1,000 kWh) based on its Schedule 7 in setting the Residential Base Rate. This update results in a decrease of 0.010 ¢/kWh due to a decrease of the same proportion in its Schedule 7 default plan Distribution Charge.

<b>Schedule 7</b>	<b>¢/kWh</b>
Transmission and Related Services Charge	0.243
Distribution Charge	4.652
Energy Charge - First 1,000 kWh	<u>6.329</u>
<b>Updated Residential Retail Base Rate</b>	<b>11.224</b>

---

<sup>1</sup> Order No. 19-392, Appendix A, pg. 81
