RE: UM 1930 PGE Community Solar Program Purchase Agreement

Portland General Electric Company (PGE) submits proposed changes to PGE's Community Solar Program Purchase Agreement.

PGE makes this filing to add clarifying language to the Purchase Agreement with a requested effective date of, February 24, 2021. PGE and OPUC Staff have agreed on language clarifying the treatment of energy deliveries prior to Commercial Operation Date, and outlining the compensation structure for Unsubscribed Energy. Additionally, PGE is correcting contract references that pointed to incorrect sections of the contract.

Additional changes include clarification of the rights and obligations of PGE and Project Managers as they relate to Start-Up Test Energy. Specifically, the proposed language permits a Project Manager to deliver, and requires PGE to purchase, Start-Up Test Energy for a period not to exceed 90 days, as early as 90 days prior to the Project's Scheduled Commercial Operations Date. PGE intends the proposed revisions to provide clarity on the terms of delivery and purchase of Start-Up Test Energy. The proposed revisions reflect input from Commission Staff.

A courtesy redline of the changes is included as Attachment A.

Please direct questions or comments regarding this filing to Santiago Beltran Laborde, (503) 464-7902. Please direct all formal correspondence and requests to the following email address pge.opuc.filings@pgn.com

Sincerely,
