Re: UM 1854 - PORTLAND GENERAL ELECTRIC COMPANY's Application to Lower the Standard Price and Standard Contract Eligibility Cap for Solar Qualifying Facilities

In compliance with Order Nos. 17-310, 17-371 and 19-016 issued by the Public Utility Commission of Oregon, Portland General Electric Company ("PGE") submits the attached January report. Pursuant to the Stipulation that was approved by Order No. 19-016 entered on January 18, 2019, PGE was required to make compliance filings for twelve months following the effective date of the order, therefore, this report will be the last compliance filing as indicated in the December 2019 report.

Consistent with the Commission's Order, the report includes a list of every solar qualifying facility ("QF") that seeks to enter into a PURPA contract with PGE, but lacks an executed contract. The information for each solar QF includes the following: (1) date of initial contract request and other milestones; (2) date of written request for draft Negotiated Agreement with indicative pricing; (3) status of the contracting process; and (4) additional information listed in the standard power purchase agreement ("PPA") or in Schedule 202 that PGE has required the QF to provide in Attachment A.

In addition, included is (5), a list of QF complaints with the Commission.

Should you have any questions or comments regarding this filing, please contact me at (503) 464-8954. Please direct all formal correspondence and requests to the following email address pge.opuc.filings@pgn.com

Sincerely,

A handwritten signature in blue ink that reads "Robert Macfarlane". The signature is written in a cursive, flowing style.
