

**BEFORE THE PUBLIC UTILITY COMMISSION  
OF OREGON**

UM 1728

In the Matter of

PORTLAND GENERAL ELECTRIC  
COMPANY,

Application to Update Schedule 201  
Qualifying Facility Information.

RULING

**DISPOSITION: WAIVER GRANTED**

On February 14, 2024, Portland General Electric Company (PGE) filed an application for waiver of OAR 860-029-0040(4)(a) in this proceeding. PGE states that given the need to comply with Staff's recommendations in the LC 80 docket, which were adopted by the Commission and affect the development of standard rates for qualifying facilities, PGE requests a rule waiver so that it may file these rates no later than March 15, 2024.

PGE states that Staff does not object to this request. I issued a ruling on February 14, 2024, that any notice of objection to PGE's request be filed no later than 3:00 p.m. on Friday, February 16, 2024. No objections were filed. Given that no stakeholder objects to the waiver request, I temporarily waive OAR 860-029-0040(4)(a), and PGE must file rates consistent with this rule no later than March 15, 2024.

Dated this 20th day of February 2024, at Salem, Oregon.
