OF OREGON**

LC 74

In the Matter of

IDAHO POWER COMPANY,

2019 Integrated Resource Plan.

RULING

**DISPOSITION: EXPEDITED MOTION FOR PROCEDURAL SCHEDULE  
MODIFICATION GRANTED**

On June 12, 2020, Staff filed a motion to modify the procedural schedule and requested expedited consideration. Staff noted the proposed modification was in response to the June 1, 2020 amended filing by Idaho Power. The amendment presents updated calculations and information regarding its Integrated Resource Plan and preferred portfolio.

Staff noted that no intervenor/stakeholder objected to the new schedule, which provides additional time for interested intervenors and stakeholders to review the amended filing prior to submitting for final comments. In addition to the proposed procedural schedule modifications, Idaho Power also agrees to a shortened interval for Information Requests regarding the amendment for the period between June 1 and July 10, 2020. Finally, Staff notes that all dates are adjusted below to avoid prejudicing any party.

Staff requested the following changes:
